

2 HOUR TIN CITY SAND DUNE ADVENTURE TOUR

After an exciting 20 minutes drive across the sand dunes you will find 'Tin City' emerging out of the sand dunes like a mirage! It all began in the late 1800's when two tin huts were built to store provisions for shipwrecked sailors (there are some 98 shipwrecks between Newcastle and Port Stephens). In the 1930's Great Depression 'Tin City' grew to 14 huts. A number of movies have been made at this location, including parts of Mad Max. The pub still stands! Other activities on this tour are Sandboarding, visiting the 'Pyramids' and an old WW11 site.
